**Subject:** presentations

Dear Trey, Kerry, Marissa and Makari,  
Jared and I very much regret missing your presentations today. Unfortunately, the Animas River spill has consumed much of our attention over the past four days, and will do so for many weeks to come as we focus on protecting Navajo Nation constituents, and working with Regions 6, 8 and HQ on the overall response.

I'm glad you had such a good turn-out for your presentations today, and thank Matt S for hosting the session and sending us your materials. Again, we're very sorry we couldn't join you today and thank you for all you've done at EPA this summer.

Kind regards,  
Alexis
